DECEMBER 6-15, 2019

WITH AN EXTENSION TO PERU

Travel with Scott Solomon,
Associate Teaching Professor at Rice University

ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II
“Seeing every height crowned with its crater, and the boundaries of most of the lava-streams still distinct, we are led to believe that within a period, geologically recent, the unbroken ocean was here spread out. Hence, both in space and time, we seem to be brought somewhat near to that great fact—that mystery of mysteries—the first appearance of new beings on this earth.”

Charles Darwin, *The Voyage of the Beagle*
DEAR RICE ALUMNI, PARENTS AND FRIENDS,

If getting up close to the place that inspired Charles Darwin’s *The Origin of Species* is on your life list of travel adventures, then an expedition to the Galápagos is authentic wish fulfillment. You’ll have encounters with the endemic wildlife that lacks an instinctive fear of humans, explore a vibrant undersea, and observe diverse geological wonders from stark volcanic landscapes to lush, green highlands.

Galápagos is ideal for active exploration for you and your family, and every day will deliver new adventures—kayak along rocky shores watching for passing sea turtles, snorkel with playful sea lions, hike lava fields crowded with basking marine iguanas, or take a sunset Zodiac cruise around islands teeming with birdlife.

You will travel aboard the *National Geographic Endeavour II*, a 52-cabin expedition ship equipped with cool tools that let you experience the islands with all your senses. Along with an experienced team of naturalists, they will enhance your understanding of this exceptional destination. Among the staff on this expedition are National Geographic photographer Thomas P. Peschak and a Lindblad-National Geographic certified photo instructor, who will offer tips to ensure you go home with incredible photos.

Make the most of your time and travel with an optional post-voyage extension to Peru, exploring Machu Picchu, the Sacred Valley, Cusco, and Lima. I hope you will join us to discover these magical places. **To reserve your space, please return the reservation form or call 713-34-TRIPS.**

Sincerely,

Dan Stypa
Associate Director of Alumni Programs

The power and relevance of our needs as humans to connect with nature cannot be underestimated. That connection is perhaps at its greatest possible level in Galápagos. The vast number of animals living in the Galápagos archipelago is a major reason you have chosen to travel to this remote part of the world. Where else on the planet can you get close to the wildlife in the context of no fear at all? This is a marvelous experience for the human spirit and the itinerary ensures that you will have it often—exploring the key islands in the archipelago and seeing the iconic species that make this region so unique.

You’ll come eye-to-eye with the famous giant tortoises roaming in the wild. Encounter blue-footed boobies nesting along a trail. Stand paces away from courting, red-throated frigatebirds. Watch your footing to avoid disturbing a sea lion lounging on a white sand beach. And swim with penguins, marine iguanas, and playful sea lions—experiences that can transform lives.

**EVERY DAY IS FILLED WITH ADVENTURE**

This expedition is designed to optimize your individual experience of Galápagos. What would you like to do today? Which of the many activities on offer—from walks to more energetic hikes, to Zodiac shore cruises, to paddling adventures—suits your interests today? Our operation is geared to get you off the ship, out exploring and actively experiencing all the kaleidoscopic wonders Galápagos offers, from swimming with sea lions off a pristine arc of beach, to snorkeling with a passing flotilla of Pacific green sea turtles. Make it yours.
LIFE ABOARD NATIONAL GEOGRAPHIC ENDEAVOUR II

Completely refitted, christened, and launched in Galápagos in 2016, the National Geographic Endeavour II is a floating base camp for exploring the islands. Originally built to carry 136 passengers, she now accommodates just 96 guests in 52 thoughtfully appointed cabins, including dedicated solo cabins, connecting cabins, and suites. Designed and equipped with the benefit of 50 years experience in Galápagos, she is the perfect platform for exploring these islands, with a fleet of Zodiacs, kayaks, and stand-up paddleboards for personal forays. With her spacious marina platform, she ensures swift deployment of all guests aboard—to get you out there on daily adventures. And Endeavour II also carries a glass-bottom boat, granting everyone not inclined to the daily snorkeling options, a window on the undersea, with a naturalist at the helm to illuminate the vivid life there.

THE HEART OF IT ALL—AN EXCEPTIONAL TEAM

The warmth, humanity, and dedication of the expedition team, officers, and crew is unequaled. The engaging naturalists, many of whom were born and bred in the Galápagos, have a deep understanding of all aspects of the islands’ natural and human history, and are experts in ornithology, geology, zoology, the undersea, and conservation. Your time with them will greatly enhance your understanding of this remote archipelago.

Be inspired and ravel with acclaimed National Geographic photographer Thomas Peschak, whose extraordinary photographs of Galápagos’ strange and wonderful species were featured in the June 2017 issue of National Geographic magazine. In addition, a Lindblad-National Geographic certified photo instructor is aboard to help you understand your camera and improve your skills, and guide you in capturing the incredible wildlife behavior on display right in front of you.

Explore the legendary Galápagos Islands aboard a comfortable 52-cabin expedition ship, well equipped for actively experiencing the wildlife and wonders of the islands.

DAY 1: U.S./GUAYAQUIL, ECUADOR
Depart for Guayaquil and upon arrival, transfer to the Hotel Hilton Colón.

DAY 2: GUAYAQUIL/GALÁPAGOS/EMBARK
This morning, fly to the Galápagos Islands and board the ship. After lunch, begin your exploration of the islands and their diverse wildlife. (B,L,D)

DAYS 3–8: EXPLORING THE GALÁPAGOS
Listed below is a sample of the islands we may visit during this expedition.* (B,L,D Daily)

ISLA SEYMOUR NORTE
Discover the largest colony of nesting magnificent frigatebirds in Galápagos, red- and blue-footed boobies, swallow-tailed gulls, and brown noddies. This small island is also home to land and marine iguanas and sea lions.

ISLA RÁBIDA
Land on a red sand beach on this volcanically varied island, where flamingos sometimes feed in a brackish
lagoon, sea lions cavort on the beach, and pelicans nest on low-lying shrubs. Rábida is an inviting place to kayak, paddleboard, and snorkel. The sunsets are magnificent.

ISLA FERNANDINA
Brightly colored Sally Lightfoot crabs skitter across recent lava fields and sea lions play along the coast against the dramatic backdrop of a towering volcano at this westernmost, youngest, and most pristine island in the archipelago.

ISLA ISABELA
Explore the largest island in Galápagos, making up more than half the land area of the archipelago. Cruise by Zodiac, hike, and snorkel in the cool, rich waters that often draw whales and dolphins. Once frequented by whalers and pirates, this is the realm of enormous marine iguanas, abundant sea turtles, the only species of flightless cormorant in the world, and the only penguin species that inhabits the Equator. The Equator crosses the north of Isabela.

ISLA SANTINA CRUZ
Santa Cruz is not just the principal town in the islands, it is home to the Charles Darwin Research Station, where you learn about the science being done here. Visit the neighboring captive breeding program for Galápagos giant tortoises being conducted by their partners in conservation, the Galápagos National Park Service. Later after lunch in the highlands, search for wild Galápagos giant tortoises in their native habitat.

ISLA SANTIAGO
Santiago offers several places to explore, including Puerto Egas, where you’ll follow a path along a series of tide pools of black basalt and arches with underwater caverns in search of Galápagos fur seals, marine iguanas, sea lions, and shorebirds. Also explore Buccaneer Cove, one of the places where Darwin landed. Swim, snorkel, kayak, and paddleboard along the coast of this fourth largest island.

ISLA SAN CRISTÓBAL
Stroll, swim, and snorkel from a green-tinted beach and hike inland to a cinder cone for views of an impressive volcanic landscape. Encounter nesting blue- and red-footed boobies, along with San Cristóbal mockingbirds and San Cristóbal lava lizards, both endemic to this easternmost island.

DAY 9: GALÁPAGOS/GUAYAQUIL/DISEMBARK
After breakfast, disembark the ship and fly to Guayaquil. The evening is at your leisure at the Hotel Hilton Colón. (B)

DAY 10: GUAYAQUIL/U.S.
Depart Guayaquil this morning, arriving home the same day. (B)

* Please note: All ship itineraries are subject to Galápagos National Park regulations. This expedition, which travels between Isla Baltra and Isla San Cristóbal, includes Isla Santa Cruz and a handpicked selection of these and other visitor sites.
