BRANDI BRIDGES '07

Brandi Bridges is the Senior Vice President of Ventures at P33, a private sector backed non-profit working to turbocharge Chicago's tech ecosystem and become a top tier tech city by 2033. As a former engineer, she is passionate about the power of science and technology to solve some of our world's toughest challenges. At P33, she works alongside Chicago's established business community to surface those problems and identify potential solution providers from within the local tech community, thereby creating more corporate-start-up collaboration and commercial activity for Chicago. Prior to her time at P33, she spent six years at McKinsey & Company where she was privileged to lead many large-scale operations transformations for manufacturers and supply chain organizations in the medical products, pharmaceutical and materials industries. Prior to joining McKinsey, she was as a project engineer at ExxonMobil where she executed large capital projects domestically and internationally. She holds a BS in Civil and Environmental Engineering and BA in Hispanic Studies from Rice University and an MBA from Harvard Business School. She is a current board member of the Association of Rice University Alumni and the Association of Rice University Black Alumni. She is also on the board of Calculated Genius, a non-profit focused on educating and enlightening underrepresented Chicago youth in engineering, and on the Local School Council of her neighborhood elementary school. She resides on Chicago's south side with her husband, two-year-old daughter and 4-month-old son.

CHRISTINA HAHN '17
